CRICHTON, Mike

My wide and varied professional experience along with my being a 'people person' would allow me to make a strong contribution to council. As a Community Radio announcer, I engage with thousands of people across Perth weekly, which gives me insight into the needs of families and the wider community. Through my business experience as both a Director of a Public Company and as a State Operations Manager for an international transport company, I am well versed in financial budgets, project management, logistics, property purchases, recruitment processes and developing policies and procedures. In another role, I provided advice, support and mediation to employers, apprentices & parents engaged in a registered apprenticeship. I also established a successful school based apprenticeship program.
