ANTOINETTE, Jackie

I listen to others for constructive results. I grew up in Armadale and own my home in Thornlie. I attended school & TAFE locally then in Sydney I studied post grad business whilst working full time where I was awarded a medal for SES service during a state of emergency.

I am an art appreciating single mother who taught my daughter to play piano. I completed projects with health teams that stockpiled PPE for this pandemic, built mobile networks across Australia and humbly worked for a former Wallabies captain in culture leadership assimilating refugee children to corporations and other projects benefiting community. I work towards socialising community, encouraging learning not just vocational and to lessen exploitation of citizens. I hope to help make Gosnells an even better place to live.
