## SHARIF, Saqib

Being an educated member of the community having four degrees in different disciplines including an MPhil in Anthropology, I am confident to be an active voice of the people in the Gosnells City Council. I have vast experience of working with Government throughout my professional career so I am well familiar with the specifics of strategic planning and management. Strongly believe in consultation with the community, informed decision making based on public opinion and 24/7 access of the voters to their elected representatives. Passionate to volunteering my time and efforts to equity, social justice and human rights. Elected Board Member of a Senior High School in Perth and a typical Sports addict.
