City of Gosnells
Notes to and forming part of the Budget
for the year ending 30 June 2024

BASIS OF PREPARATION

The budget has been prepared in accordance with Australian Accounting Standards (as they apply to local government and not-for-profit entities) and Interpretations of the Australian Accounting Standards Board, and the *Local Government Act 1995* and accompanying regulations. The *Local Government (Financial Management) Regulations 1996* take precedence over Australian Accounting Standards where they are inconsistent.

The *Local Government (Financial Management) Regulations 1996* specify that vested land is a right-of-use asset to be measured at cost. All right-of-use assets (other than vested improvements) under zero cost concessionary leases are measured at zero cost rather than at fair value. The exception is vested improvements on concessionary land leases such as roads, buildings or other infrastructure which continue to be reported at fair value, as opposed to the vested land which is measured at zero cost. The measurement of vested improvements at fair value is a departure from *AASB 16 Leases* which would have required the City to measure any vested improvements at zero cost.

Accounting policies which have been adopted in the preparation of this budget have been consistently applied unless stated otherwise. Except for cash flow and rate setting information, the budget has also been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

All monies held in the Trust Fund are excluded from the financial statements. A separate statement of those monies appears at Note 15 to the budget.

2022/2023 Actual Balances

Balances shown in this budget as 2022/2023 Actual are estimates as forecast at the time of budget preparation and are subject to final adjustments.

CHANGES IN ACCOUNTING POLICIES

On 1 July 2023 no new accounting policies are to be adopted and no new policies are expected to impact the annual budget.

KEY TERMS AND DEFINITIONS – NATURE OR TYPE

REVENUE

Rates

All rates levied under the *Local Government Act 1995*. Includes general, differential, specific area rates, minimum rates, interim rates, back rates, ex-gratia rates, less discounts offered. Excludes administration fees, interest on instalments and interest on arrears.

Operating Grants, Subsidies and Contributions

City of Gosnells
Notes to and forming part of the Budget
for the year ending 30 June 2024

1. RATES (CONTINUED)

(a) Rating Information (continued)

All land except exempt land in the City of Gosnells is rated according to its Gross Rental Value (GRV) if its use is predominantly non-rural or Unimproved Value (UV) in the rural area.

The differential general rates for the 2023/2024 financial year have been determined by Council on the basis of raising the revenue required to meet the deficiency between the total estimated expenditure proposed in the budget and the estimated revenue to be received from all sources other than rates, and also considering the extent of any increase in rating over the level adopted in the previous year.

The minimum rate has been determined by Council on the basis that all ratepayers must make a reasonable contribution to the cost of the local government services/facilities.

SIGNIFICANT ACCOUNTING POLICIES

Rates Revenue

Rates revenue is recognised on commencement of the rating period. Prepaid rates are, until the taxable event for the rates has occurred, refundable at the request of the ratepayer. Therefore, rates received in advance are recognised as income in advance as part of trade and other payables at Note 3.

City of Gosnells
Notes to and forming part of the Budget
for the year ending 30 June 2024

(b) Objectives and Reasons for Differential Rating

Objective

The objective of imposing a differential rate is to obtain fairness and equity in generating income from properties within the City. To meet the above objective, the following rate categories have been determined:

Rate Type	Characteristics	Reasons
Extractive Industry	Any land zoned, held or used solely for mining and/or having improvements erected on it.	A higher rate in the dollar at 190% of the rate imposed on improved land has been applied to Extractive Industries as Council considers it appropriate given the impact this activity has on the road infrastructure and the environment.
General GRV	Any land held or predominantly used for residential, commercial or industrial purposes and being vacant or having improvements erected on it.	The rate in the dollar is calculated to provide the shortfall in income required to enable Council to provide necessary works and services in the 2023/2024 financial year.
Rural GRV	Any land zoned rural but used predominantly for non-rural purpose and being vacant or having improvements erected on it.	A higher rate in the dollar at 120% of the rate imposed on improved land has been applied to Rural GRV because Gross Rental Values do not adequately take into consideration the value of large land holdings.
Tenancy Agreements	Council properties leased to organisations incorporated under the Associations Incorporation Act 1987.	The higher rate in the dollar of the rate imposed on improved land is calculated to recover the administration expenses associated with managing tenancies applicable to all organisations incorporated under the Associations Incorporation Act 1987 that tenant City property.
Town Centre	Properties within the Gosnells Town Centre Special Control Area as identified on the City's Town Planning Scheme No. 6 Scheme Map.	A higher rate in the dollar at 115% of the rate imposed on improved land is applicable to all commercial properties in the Gosnells Town Centre to recognise both the investment by the City in the Town Centre Revitalisation project and the additional operational expenses associated with the ongoing level of service provided.
Rural UV	Any land held or predominantly used for rural purposes and being vacant or having relevant buildings erected on it.	The rate in the dollar is calculated to provide the shortfall in income required to enable Council to provide necessary works and services in the 2023/2024 financial year.
Rural UV Agricultural Concession	Minimum lot area of 20,200 square meters and the resident owner derives his/her livelihood from uses including, but limited to grazing, dairying, tree farming and animal husbandry.	A concession of 20% off the Rural UV rate is offered to owners who have had continuous ownership since 1 July 1986 of the rural property and who meet the adjacent characteristics and criteria.

Notes to and forming part of the Budget
for the year ending 30 June 2024

1. RATES (CONTINUED)

(b) Objectives and Reasons for Differential Rating (continued)

Differential Minimum Payment

A uniform minimum rate is applied to all rate categories. The imposition of a minimum rate is in recognition that every property receives some minimum level of benefit from services provided. As such, Council has adopted an appropriate minimum rate to take this into consideration.

(c) Interest Charges, Administration Fees and Rate Payment Options

(c) Interest Charges, Administration Fees and Rate Payment Options (continued)

Description of Interest Charges and Payment Arrangement Plans:

Four Instalment Payment Plan

The four instalment arrangement plan incurs an administration fee (excluding registered Pensioners/Seniors with 100% equity) to recover the additional cost to the City to administer this plan. The four instalment plan attracts interest calculated on a daily basis. Arrears from previous years are included and payable in the first instalment and continue to attract late payment interest until paid.

Late Payment Interest

Late payment interest is imposed on all rates related fees and charges (current and arrears) including but not limited to general rates, specified area rates, refuse charges and swimming pool inspection fees (excluding registered Pensioners/Seniors with 100% equity). Interest will be charged on a daily basis on all arrears and current amounts that remain unpaid 35 days from the date of issue of the original rate notice.

Direct Debit Payment Plan

Weekly, fortnightly or four weekly payment arrangements can be made by way of Direct Debit (bank account only). An administration fee is charged (excluding registered Pensioners/Seniors with 100% equity) on each payment arrangement.

3. NET CURRENT ASSETS (CONTINUED)

SIGNIFICANT ACCOUNTING POLICIES

Current and Non-Current Classification

In the determination of whether an asset or liability is current or non-current, consideration is given to the time when each asset or liability is expected to be settled. The asset or liability is classified as current if it is expected to be settled within the next 12 months, being the City's operational cycle. In the case of liabilities where the City does not have the unconditional right to defer settlement beyond 12 months, such as vested long service leave, the liability is classified as current even if not expected to be settled within the next 12 months. Inventories held for trading are classified as current even if not expected to be realised in the next 12 months except for land under development and developed land where it is held as non-current based on the City's intentions to release for sale.

Trade and Other Receivables

Trade and Other Receivables include amounts due from ratepayers for unpaid rates and other amounts due from third parties for goods sold and services performed in the ordinary course of business.

Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets.

Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. A provision for impairment is raised when there is objective evidence that they will not be collectible.

Inventories

Inventories are measured at the lower of cost and net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land Under Development and Developed Land

Land under development and developed land is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development. Finance costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed on to the buyer at this point.

Land under development and developed land is classified as current asset except where it is held as non-current based on Council's intentions to release for sale.

Contract Liabilities

Contract liabilities represent the City's obligation to transfer goods or services to a customer for which the entity has received consideration from the customer. Contract liabilities are recognised as revenue when the performance obligations in the contracts are satisfied.

Capital Grant Liabilities

Capital grant liabilities are recognised for transfers received to acquire or construct non-financial assets that are to be controlled by the City where the City has yet to perform the obligations under the transfers.

Capital grant liabilities are recognised as revenue when the obligations under the transfers are performed.

Developer Contribution Plan Liability

The City receives contributions from landowners as required under developer contribution arrangements. In accordance with State Planning Policy 3.6 "Infrastructure Contributions", the contributions are recognised in the City's cash-backed reserves (refer to Note 8). Developer contribution plan liabilities represent the unspent contributions from the developer contribution plan relating to construction and/or acquisition of assets that will be controlled by the City.

Developer Contributions are recognised as revenue when the performance obligations in the arrangement are satisfied, i.e. when the arrangement reimburses the City or developer for the construction and/or acquisition of assets.

for the year ending 30 June 2024

3. NET CURRENT ASSETS (CONTINUED)

SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Trade and Other Payables

Trade and Other Payables represent liabilities for goods and services provided to the City prior to the end of the financial year that are unpaid and arise when the City becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured, are recognised as a current liability and are normally paid within 14 days of recognition.

Trade and other payables include income in advance.

Income in Advance

Income in advance represent liabilities arising from payments received by the City prior to satisfying its obligation to provide goods or render service. Income in advance mainly comprises of prepaid rates.

Provisions

Provisions are recognised when the City has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

Employee Benefits

Short term employee benefits

Provision is made for the City of Gosnells' obligations for short-term employee benefits. Short term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages salaries and annual leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

Superannuation

The City of Gosnells contributes to a number of superannuation funds on behalf of employees.

All funds to which the City of Gosnells contributes are defined contribution plans.

The City of Gosnells' obligations for short term employee benefits such as wages and salaries and superannuation are recognised as a part of Trade and Other Payables. The City of Gosnells' obligations for employees' annual leave and long serve leave entitlements are recognised as Provisions.

6. ASSET DEPRECIATION AND AMORTISATION (CONTINUED)

SIGNIFICANT ACCOUNTING POLICIES

Depreciation and Amortisation

The depreciable amount of all fixed assets including buildings but excluding freehold land, are depreciated on a straight-line basis over the individual asset's components' useful life from the time the asset is held ready for use or depreciated over its remaining useful life once revalued. Leasehold improvements are depreciated over the shorter of either the unexpired period of the lease or the estimated useful life of the improvements.

Similarly, intangible assets are amortised on a straight-line basis over the individual asset's life from the time the asset is held ready for use.

The useful lives of assets are reviewed, and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Profits and losses on asset disposals are determined by comparing proceeds with the carrying amount. These profits and losses are included in profit or loss in the period in which they arise.

Major depreciation periods used for each class of depreciable asset are:

Asset Class	Years
Bridges - roads.....	60 to 100

SIGNIFICANT ACCOUNTING POLICIES

Borrowing Costs

Borrowing costs are recognised as an expense when incurred except where they are directly attributable to the acquisition, construction or production of a qualifying asset. Where this is the case, they are capitalised as part of the cost of the particular asset until such time as the asset is substantially ready for its intended use or sale.

(c) Change in Use of Reserves

The City has resolved to make changes to the use of part of the money in the below reserve accounts. This money is to be used for a purpose other than the purpose for which the account was established.

Developer Contributions Infrastructure Reserve

The Developer Contributions Infrastructure Reserve was established to set aside contributions paid by developers for road and drainage infrastructure works or non-Town Planning Scheme or Outline Development Plan Projects. The contributions include funds received under Local Planning Policy 5.7 Gosnells and Beckenham Laneways.

During the 2022/23 financial year, the City reviewed the funds held in the reserve and determined that funds held in the reserve were collected towards provision of infrastructure in some of the City's older suburbs for which infrastructure has been delivered and funded through municipal funds. The value of contribution collected for those works total \$476,142. That reserve will be transferred from the Developer Contributions Infrastructure Reserve into the Community Infrastructure Reserve.

The review also identified that there were funds collected from areas where a Developer Contribution Arrangement exists and towards provision of public open space. Those funds total \$97,012 and are proposed to be transferred from the Developer Contributions Infrastructure Reserve as follows:

- \$25,431 into the Local Open Space Strategy Reserve
- \$10,000 into the ODP – West Canning Vale Reserve
- \$32,000 into the ODP – Southern River Precinct 1 Reserve
- \$29,581 into the ODP – Maddington Road A and B Reserve

As the remaining funds held in this reserve relates to the construction of laneways in Gosnells and Beckenham, the reserve will be renamed to the Gosnells and Beckenham Laneways.

17. SIGNIFICANT ACCOUNTING POLICIES – OTHER INFORMATION

Budget Comparative Figures

Unless otherwise stated, the budget comparative figures shown in the budget relate to the original budget estimate for the relevant item of disclosure.

Comparative Figures

Where required, comparative figures have been adjusted to conform with changes in presentation for the current budget year.

Critical Accounting Estimates

The preparation of a budget in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses.

The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which, form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO).

Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables.

Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

Rounding Off Figures

All figures shown in this budget, other than a rate in the dollar, are rounded to the nearest dollar.
