Councillor's Corner

As a Councillor, ratepayer and long-term resident, I have been proud to call the City of Gosnells my home for over 30 years. I'm also very proud of our City staff who work hard to keep the City of Gosnells performing well and looking clean, bright and beautiful.

'Snap, Send, Solve' are three simple but very important words for our City, and for that matter, many local governments around Australia. The words are the name of

an easy-to-use, free app you can download to your phone, which allows members of the public to easily report an issue to the City, send a photo and identify a location in easy-to-follow steps. City staff work very hard to look after our City, one of the fastest-growing cities in Australia, and reports through the Snap, Send, Solve app are another way to help to make that job happen quickly and efficiently.

In 2024, I look forward to more local users of the app snapping, sending and helping to solve the everyday issues that arise in our community, in a timely manner and helping to keep our City a place we can all be proud to call our home.

New dog park open

The City of Gosnells recently opened a new enclosed park your dog will dig at Bracadale Park, Canning Vale.

With separate areas for timid and boisterous dogs, water bowls, logs, ramps, tunnels and plenty of open space to play, the new park is a pooch's paradise. There is even seating and shade for humans.

Visit yoursay.gosnells.wa.gov.au to see what else is planned at Bracadale Park.
