

Request ID	55314
Request Name	Tender 03/2025 - Private Drainage Connections
Description	The Principal is seeking to appoint a Contractor to undertake Private Drainage Connections for a period of one year with two extension options of two years each. The contract will involve the execution of various civil engineering works including: • excavation • pavement construction • drainage works • earthworks Depending on the location, connections may involve the following elements: Typically, a drainage connection project will involve the installation of three 6m sections of 150mm diameter PVC pipe and new manhole, base and trafficable or non-trafficable lid, cut into an existing drainage pipe in accordance with Standard plan ES50 Standard Drainage Lot Connection. Drainage works may also include but not limited to; installation of additional manholes, side entry pits, gullies and road crossings where required. Kerb and footpath replacement/repair/reinstatement may also be required with property connections. Upon completion the Contractor must contact the City's drainage supervisor to inspect the works to ensure compliance and meet quality standards. The Contractor will be required to provide all labour, plant and equipment, materials, transport/cartage and waste disposal, and anything else necessary to carry out the Works required. No site inspections will be held for this tender.
